Please reference sales contract for specific instructions per brand / client!

1st. Priority: Combination of Roof To Pole, Pole To Pole & Pole To Ground

The below diagrams show the best possible installation methods for an Out Lot location. If one method (pole to pole, pole to ground or pole to roof) is not possible because of the structure of the building or parkinglot, please use at least two types of installations.

If only one type of installation can be used, please call the Event Project Mgr. before leaving the site.

Use ALL materials!! If not, able to install any of the visibility, please call the Event Project Mgr. before leaving the site.

Please make sure that you have appropriate equipment for the lines to be at least 18' up the light pole.

For pole to ground installs, stakes are NOT included with the materials. Please make sure to have at the ready for when needed.
